**KANSAS BOARD OF COSMETOLOGY
ECONOMIC IMPACT STATEMENT
K.A.R. 69-11-1**

I. Summary of Proposed Regulation, Including Its Purpose.

K.A.R. 69-11-1, as amended, increases the fee for examination for cosmetologist, esthetician, nail technician and electrologist apprentices. Apprentices are required to take both a written examination and a practical examination. The amendment increases the fee for each examination from \$50.00 to \$75.00.

II. Reason(s) the Proposed Regulation is Required, Including Whether or Not the Regulation is Mandated by Federal Law.

The proposed regulation is required in order to cover the administrative costs associated with administering the examinations.

The Board contracts with an examination company, Ergometrics, to administer the practical and written examinations. In addition, to operating three testing locations in the State, Ergometrics provides the Board and schools with a database that tracks all cosmetology profession apprentice hours and test results. The option of three testing locations and the availability of a database are improvements that were not available prior to the contract with Ergometrics. The examination fee is the only fee paid to Ergometrics for administration of the examination program and database. The examination fee has not increased in the past 17 years and was last increased in 1998 from \$25.00 to \$50.00.

Ergometrics also administers examinations for the states of Virginia and Washington. In Virginia, the fee for the written and practical examination is \$85.00 for each exam. In Washington, the fee for the written examination is \$60.00 and the fee for the practical examination is \$120.00.

In the neighboring state of Missouri, Professional Credential Services administers examinations for the Missouri Division of Professional Registration. The fee for the written examination is \$90.00 and the fee for the practical examination is \$60.00.

This regulation is not mandated by federal law, and, therefore, the regulation does not exceed the requirements of federal law.

III. Anticipated Economic Impact upon the Kansas Board of Cosmetology.

The Board contracts with an examination company, Ergometrics, to administer the practical and written examinations and all fees for examination are paid directly to Ergometrics. The Board does not anticipate an economic impact on the Board.

IV. Anticipated Economic Impact upon Other Governmental Agencies.

The Board does not anticipate economic impact on other governmental agencies.

V. Anticipated Economic Impact upon Private Businesses, Individuals, and Consumers.

The Board anticipates an economic impact on apprentices of an additional \$25.00 to take each examination.

VI. Less Costly or Intrusive Methods That Were Considered, but Rejected, and the Reason for Rejection.

The Board does not find any less costly or intrusive methods.
